

The Goldshield® product line is state of the art technology and unlike any product available on the market today. The active ingredient in Goldshield® 24 is totally unique in structure, effectiveness, persistence, and application. It is a material that combines proven antimicrobial chemistry with the protecting and moisturizing capabilities of silicones. The water soluble Goldshield® 24 transforms to an invisible macropolymeric, polyionic layer on application to the skin which is not removed by repeated hand washing or rinsing. Goldshield® 24 offers continual antimicrobial protection coupled with long term moisturizing qualities. Application to the skin eliminates and inactivates bacteria, viruses, and fungi, and also prevents re-infection. Goldshield® 24 does not build or increase antibacterial or antimicrobial resistance in pathogens on repeated or prolonged usage.

Unlike Goldshield® 24, other hand sanitizers on the market today are primarily ethyl or isopropyl alcohol formulations. While they eliminate selected bacteria upon application to the skin, they offer no residual germ killing properties. Application of these products not only dry out your skin but also offer a fresh surface for germs to re-infect as soon as your hands are dry. Goldshield® 24 remains on your hands for all day protection and moisturizes as it protects. Goldshield® 24 combines a minimal amount of alcohol with the active ingredient to form the most effective and durable hand rinse. Goldshield® 24, with its unique antimicrobial formula, protects you from all types of germs for up to 24 hours.

Goldshield® is Effective Against:

Gram Positive Bacteria

Bacillus sp. (vegetative cell)
Corynebacterium diphtheriae
Micrococcus lutea
Micrococcus sp.
Mycobacterium tuberculosis
Mycobacterium smegmatis
Propionibacterium acnes
Staphylococcus aureus
Staphylococcus epidermidis
Streptococcus faecalis
Streptococcus mutans
Streptococcus pneumoniae
Streptococcus pyogenes

Gram Negative Bacteria

Serratia marcescens
anthomonas campestris
Acinetobacter calcoaceticus
Aeromonas hydrophilia
Citrobacter deversus
Citrobacter freundii
Enterobacter aerogenes
Enterobacter agglomerans
Enterobacter cloacae
Enterococcus
Escherichia coli
Klebsiella oxytoca
Klebsiella pneumoniae
Klebsiella terrigena
Legionella pneumophila
Morganella morganii
Proteus mirabilis
Proteus vulgaris
Pseudomonas aeruginosa
Pseudomonas fluorescens
Salmonella cholerae suis
Salmonella typhi
Salmonella typhimurium
Serratia liquifaciens

Viruses

Adenovirus Type II & IV
Bovine Adenovirus Type I & IV
Feline pneumonitis
Herpes Simplex Type I
Herpes Simplex Type II
H1N1
HIV-1 (AIDS)
Influenza A2 (Aichi)
Influenza A2 (Asian)
Influenza B
Mumps
Parinfluenza (Sendai)
Rous Sarcoma
Reovirus Type I
Simian Virus 40
Vaccinia
MS2
PRD1

Goldshield 24® Hand Sanitizer

8oz Pump Foamer

32oz Refill

1gal Refill

Wall-Mount Dispenser

Goldshield® 75 Hard Surface Sanitizer

32oz Sprayer

Goldshield® 101nid Non-Ionic Detergent

1gal Bottle
